Richmond is an important industrial, shipping and residential city on the east shore of San Francisco bay. It is the youngest of the important manufacturing and port communities of the Pacific Coast, and with the building of the San Francisco-Oakland bridge, together with the establishment of direct bus service for commuters, it takes its place with other East Bay cities as a residence center of the first importance.

It is the home of two score industries of national scope, largest of which are the Ford Motor Company's assembling plant and the Standard Oil Company's great petroleum refinery, each with a payroll of nearly $3,000,000 a year. Its products cover a wide range; its markets are national and international.

The port covers a distance of ten miles from Pt. Isabel on the south to Pt. San Pablo on the north. There are four modern facilities, one at Pt. San Pablo, one at the Outer Harbor, two on the Inner Harbor, all operated by the Parr-Richmond Terminal Corporation under a lease system from the Municipality of Richmond in connection with the Municipali[illegible] the region and draws [illegible] ontra Costa County an[illegible]

Th[illegible] ion of the City in i[illegible] m is built largely a[illegible] ion of the Port, bu[illegible]

To Whom It May Concern:

The Executive Board of the RICHMOND MERCHANTS' ASSOCIATION considers the POLK RICHMOND CITY DIRECTORY of vital importance to our city and favors advertising in it.

This endorsement, however, in no way pledges or binds the members of the Association, as they are at liberty to use their own judgment in the matter.

By way of information, we may add that the POLK DIRECTORY COMPANY now maintains a Directory Library of approximately one hundred volumes in the Chamber of Commerce Headquarters here and this branch is one of a chain of four hundred and fifty libraries in which the RICHMOND CITY DIRECTORY may be found.

INTRODUCTION

R. L. POLK & CO., publishers of the Richmond Directory, as well as many other city, county, state and national directories, present to subscribers and the general public, this, the 1937 edition of the Richmond Directory, which also includes a directory of Martinez.

Confidence in the continued growth of Richmond's wealth, industry and population, and in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truthfully reflecting Richmond to the world.

The enviable place occupied by R. L. POLK & CO'S directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Richmond Directory will fulfill its mission as a source of authentic information pertaining to the community.

Population

The estimated population of Richmond is 27,058, based on the number of individuals' names in the alphabetical section of the directory, with due allowance for children and for women whose names are not listed separately from those of their husbands. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the directory. The population of Martinez is estimated at 8141.

Five Major Departments

The several essential departments are arranged in the following order:

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations for Richmond is included in pages 13 to 352. A similar list for Martinez is contained in pages 447 to 560.

THE DIRECTORY OF HOUSEHOLDERS, TENANTS OF OFFICE BUILDINGS AND OTHER BUSINESS PLACES, AND STREET AND AVENUE GUIDE for Richmond covers pages 353 to 444. In this section the names of the streets and avenues are arranged in alphabetical order; the residence and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers. Home property ownership is indicated by the character (o), placed immediately after the name of the householder. A similar guide for Martinez is contained in pages 561 to 588.

THE BUYERS' GUIDE of Richmond, opposite page 588, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Richmond and vicinity. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best and, as such, merits a survey by all buyers anxious to familiarize themselves with sources of supply. The community's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive city like Richmond, the necessity of having this kind of information immediately available, is very great and, frequently, pressing. General appreciation of this fact is evidenced by the liberal support the city directory enjoys in the many fields which it serves.

THE CLASSIFIED BUSINESS DIRECTORY ils included in pages 589 to 662. This department lists the various manufacturing, mercantile and professional interests of the whole community in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

THE NUMERICAL TELEPHONE DIRECTORY for Richmond is given in pages 663 to 692 and Martinez in pages 693 to 704.

Community Publicity

The directory reflects the achievements and ambitions of Richmond, depicting in truthful terms what it has to offer as a place of residence. as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of Richmond and vicinity, for business men, everywhere, realize that the city directory represents a community as it really is.

The Richmond Directory Library

Through the courtesy of the publishers of the Richmond City Directory, a Directory Library is maintained in the offices of the Richmond Chamber of Commerce for free reference by the general public. This is one of the 450 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO., Publishers.

Richmond Statistical Review

Name of City: Richmond, California.

Slogan or sub-phrase: Richmond—Industry's Western Goal.

Form of Government: City Council—City Manager.

Population: 23,500.

RICHMOND . . .

Industry's Western Goal

Richmond moves steadily forward, constantly widening its sphere of influence, and gaining in importance as one of the most important industrial and shipping cities of the west coast. This progress began thirty years ago and has been consistent through good times and bad.

While the Chamber of Commerce and other organizations concentrate on the task of attracting new industries, emphasis in the last year or two has been more largely on bringing the port up to a standard where it could compete with any of the ports on San Francisco Bay. Through new dredging which resulted in wider and better channels, and the construction of large modern facilities, this has been accomplished. Richmond offers everything at its terminals that can be offered by any others, and in addition is in a fortunate strategic position as regards the great mass of industrial and agricultural products that originate along the Contra Costa bay shore and in the delta region.

There is a large terminal on the inner harbor, and a smaller one near by; the original wharf at the outer harbor, and a facility at Point San Pablo specializing in the handling and storage of oil products. A new industry has been established at Point San Pablo for the manufacture of fish flour and fish meal.

Activities by other recently acquired industries such as the Ford Motor Company and the Filice and Perrelli cannery continues satisfactory from year to year. The choice of Richmond as a site for a plant by so many outstanding manufacturers shows Richmond's right to the use of the slogan, "Richmond—Industry's Western Goal."

The history of the city really begins in 1900 when the Santa Fe Railroad located its Western terminal here. In 1901 the Standard Oil Company established its refinery at Point Richmond with 80 employees. It produces more than 600 separate products from California crude petroleum, everything from asphalt to the finest medicinal oils. Lubricants, greases, gasoline, Kerosene, vaseline, floor polish and many other products are found in the long list that comes from the great plant at Richmond.

Richmond is situated on deep water and at the same time is served by two transcontinental railroads, the Santa Fe and the Southern Pacific. It therefore enjoys the advantageous and convenient shipping service on

the coast, and its industries are prepared to serve the domestic and foreign markets as economically as any other Pacific Coast city.

Richmond shares with other cities on the east shore of San Francisco Bay an ideal all year working climate. It possesses an attractive home atmosphere and good residential tracts where homes may be acquired by working men at reasonable cost. It has large modern school buildings with adequate playgrounds and highly trained staffs of teachers to equip the younger generation for the struggle of life.

Richmond has been found by its residents to be an ideal home city and is annually attracting many new families who show no tendency to move elsewhere.

Theatres, well managed shops with large attractive stocks add to the list of features that make the city attractive to the home dweller.

Shipping is largely over the Parr Richmond wharf on the outer harbor and the Parr Richmond wharf on the inner harbor. Both facilities are operated upon a joint agreement between the Parr Terminal Company and the City of Richmond. The plan is satisfactory and the city receives a substantial annual revenue.

Richmond is one of the cities included in the East Bay Municipal Utility District, and the benefits of an unlimited supply of pure mountain water from the Mokelumne River nearly 100 miles away through a new water system. This is strictly a municipal enterprise, financed by public bond issues and managed by a board of directors elected by the people. Henry A. Johnston of Richmond is one of the directors.

A large part of Richmond's success is attributed to the remarkable cooperation which exists between the principal civic groups. The Chamber of Commerce is highly organized and devotes itself exclusively to the attraction of new industries. The city council works hand in hand with the Chamber and every matter of civic importance is jointly reviewed by these two bodies.

POLK'S
RICHMOND

Directory of Householders
Occupants of Office Buildings and Other Business Places
Including a Complete
Street and Avenue Guide

1937

Copyright 1937, by R L Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets follow the Alphabetical Streets.

The symbol (o) following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The City Directory

places the city on the map and is its only representative to the world beyond its own gates.

It is the city's catalogue of business and represents the city, its citizens and institutions in every corner of these United States.

It is the logical means of publicity in advertising the city, its manufacturing industries, its advantages and resources.

The men who direct the affairs of progressive and up-to-date business institutions, recognize the fact that the City Directory tells the story of the city's life and keeps it before the public as no other publication does or can.

Its Classified Business Section furnishes a list of all trades, professions and pursuits, constituting a special trade directory or buyers' guide and is the best advertising medium on earth.

TRADE! You like

to patronize those concerns who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quicks and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such fundamentals as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

THE PUBLISHERS

MARTINEZ STATISTICAL REVIEW

Name of City: Martinez, California.
Founded in 1849
Incorporated in 1851

Slogan: "Every Industrial Advantage."

Form of Government: Sixth class, Mayor and City Council.

Population: 10,000.

Predominating nationalities in city are American.

County seat of Contra Costa County.

Altitude: 10 to 200 feet.

Assessed Valuation: $6,404,840 with $.99 tax rate.

Parks number 3 with 2¼ acres.

City's bonded debt is $203,125.

Financial: 3 banks.

Post Office receipts of $48,645 (1936).

Telephones in service: 1915.

Church buildings: 10.

Industry: Number of establishments, 6; employing 2,200.

Trade: Territory (Retail) serves 22,000 people within the trading area covering a radius of 15 miles.

Climate: Mean annual temperature 70 degrees F.; average annual rainfall 15 inches.

Newspapers: 1 daily, 2 weekly.

Hotels: There are 5 hotels with the total of 250 rooms.

City Served by S.P.; A.T.& S.F. railroads.

Amusements: 2 theatres seating 1,850 people; tennis, swimming, bowling, fishing, boating, etc.

SHORT HISTORY OF MARTINEZ, CALIFORNIA

By Harry A. Barnes, Secretary-Manager
MARTINEZ CHAMBER OF COMMERCE

Martinez, in Contra Costa County, California, is situated on the banks of the Straits of Carquinez, a short distance below the confluence of the Sacramento and San Joaquin Rivers, and is a part of the Rancho Las Juntas. The Rancho Las Juntas was an old Spanish Crown grant to Don Vicente Martinez, Commander of the San Francisco Presidio in the year 1823. The home which Don Vicente built for himself still stands in Alhambra Valley, one-half mile south of the city limits of Martinez. Martinez came into existence in 1849, when thousands of gold seekers rushed from San Francisco to the Sierra Gold Fields, crossing the Carquinez Straits at this point, and making Martinez their overnight stopping place. The original Martinez Benecia Ferry was started at this time by Captain O. C. Coffin (with horses, for motive power). During the early years of its existence Martinez was a swashbuckling town of the West, a rendezvous for gold miners, trappers and hunters, and even an occasional bandit, notably the famous Joaquin Murietta. After the hectic days of the glod rush Martinez and its surrounding country settled down to become the home of peaceful farmers and ranchers, the most famous of whom was John Muir, California's foremost naturalist, and John Swett, often referred to as the father of the California School System, both of whom settled in Alhambra Valley just to the south of Martinez.

By an act of the first legislature of the State of California, the County of Contra Costa was organized and the town of Martinez was designated as its County Seat, the said act being dated April 25, 1850. Contra Costa County, at that time, included most of what is now Alameda County, the separation of the two counties being made on March 25, 1853, by an act of the legislature. In spite of the many stories to the contrary Martinez has always been the County Seat of Contra Costa County. The first townsite of the town of Martinez was surveyed by T. H. Brown, under contract to William Smith, and consisted of a 120-acre site. Later a 500-acre site was surveyed as an addition to the town of Martinez.

The first Court House in Martinez was constructed upon the site of the present Court House in 1854 at a cost of $27,000.00, and was replaced by the present Court House Building in 1901, which was built at a cost of approximately $300,000.00. The new Hall of Records, completed in 1935, was built at a cost of approximately $400,000.00, and at the time that it

Specializing on CHRYSLER MADE PRODUCTS
GUS' GARAGE
GUS A. RENKERT AUTOMOBILE MECHANIC AND ELECTRICIAN
Tel. Richmond 1688 Richmond, Calif. 826-28 Chanslor Ave.

was ready for occupancy the building was completely paid for, and without the issuing of bonds, the Supervisors having levied a small tax throughout the past years to take care of the cost of construction.

A few years after the formation of the town of Martinez in 1850 the Supreme Court of the State of California declared the act of the legislature null and void, and thus left the city without an organization. Owing to the costs involved in holding an election the town was not organized until 1876, and later, in 1884, an election was held to reorganize the town. The election carried by a vote of 111 to 2 against, and the re-organization completed on May 12, 1884. Martinez is still operating under such re-organization.

Nothing of any great importance took place during the intervening years to 1915, when the Shell Oil Company started the construction of their present large oil refinery, and Martinez then started a healthy growth which has continued to the present time. Many other industries have located in and around Martinez since that time, and Martinez is now a busy industrial and shopping center as well as a most desirable place in which to establish and enjoy a home.

The paving of the streets in Martinez was started about 1920 and has continued until now the city has more than 90 per cent paved with a durable and lasting pavement. The construction of the Southern Pacific Bridge has made Martinez a railroad center and transfer point for passengers traveling east and south, and more than 80 trains pass through the city daily, since the completion of the bridge in 1930.

The City of Martinez owns more than 50 acres of her waterfront, a large portion of which was filled by dredging in 1927, and also owns a municipal wharf, at the end of which has been constructed a large Yacht Harbor, measuring 500 feet by 175, and capable of harboring 60 boats of various sizes. Being located in the center of the striped bass fishing area the harbor has been completely filled since its completion and a movement is now under way to enlarge the harbor to twice its size.

Martinez is located within 25 miles of Oakland and within 30 miles of San Francisco, and owing to the Broadway Tunnel and the San Francisco-Oakland Bay Bridge, the travel time to both cities is considerably below one hour.

Good Business Insurance

•

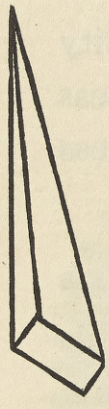
Your advertisement in the City Directory with proper business listings insures your business against loss of trade.

The manufacturer or business institution that overlooks this fact is not building for the future.

The City Directory is active 365 days every year—let it serve you as it does others.

Our representative will be pleased to call and explain the value of reference advertising.

The City Directory



Does not compete with any other advertising medium, but supplements and complements all other forms of mercantile publicity.

Intelligent Directory Advertising describes desirable merchandise attractively and directs you to the door of the man who has it for sale.

POLK'S
MARTINEZ
Directory of Householders
Occupants of Office Buildings and Other Business Places
INCLUDING A COMPLETE
Street and Avenue Guide
1937

Copyright, 1937, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets follow the Alphabetical Streets.

The symbol (o) following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

MORE GOODS
ARE BOUGHT AND SOLD
THROUGH THE
CLASSIFIED BUSINESS LISTS
OF THE
DIRECTORY
THAN
ANY OTHER MEDIUM
ON EARTH

THIS PUBLICATION IS THE PRODUCT OF A MEMBER OF

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

How to Make Application for

WATER SERVICE

When moving into a new house the first requirement necessary is Water Service.

It is no trouble to get this service. You may come to any one of the District's four business offices, as shown below, and personally sign for meter connection—you may write your request for water—or if, in the confusion of moving, it is not convenient to write or call, a telephone message will bring a service man to you at your home.

It is the desire of the District to make it easy and convenient for you to get water service. All business offices are instructed to comply promptly with every reasonable request.

If you are a newcomer to this community you will be asked to make a deposit which may be returned to you after one year with interest at 6%.

The East Bay Municipal Utility District is anxious to serve you in every possible way, and the development of this broad policy of handling orders is part of the service to you.
